

889T2 Advance Post

With Dual Line Webbing

Stylish and sleek design with dual line webbing for added crowd control. Features the universal base, with the lowest leading edge on the market- enabling accessibility for all. Ideal for a variety of applications.

Order Code

88gT2UH-STD – Advance Post with Dual Line Webbing and Heavy Weight Universal Base 2.3m

88gT2UH-MAX – Advance Post with Dual Line Webbing and Heavy Weight Universal Base 3.65m

Features & Benefits

- The advance post features a high quality steel post with a hard wearing cast iron base which has been designed with accessibility in mind.
- The edges of the base taper towards the floor to ensure wheelchairs, pushchairs and suitcases can roll over the base with ease - creating a less obstructive queue environment.
- Dual Line webbing ensures maximum control and security whilst also offering extra branding opportunities.
- The safest barrier on the market – our cassettes have a unique braking system for slower webbing retraction.
- 36° displacement angle, preventing the post from easily toppling over.

Product Specification

- Metal post available in a range of powder coated colours or metal finishes.
- Available with any Tensator® standard (50mm) webbing options.
- Modular webbing cassette – all cassettes come as standard with our four-point anti-tamper webbing connectivity. This allows you to connect other Tensabarrier® products to the receiver splines on the cassette head.
- Comes as standard with an anti-tamper tape end.
- Dual line webbing post comes as standard with heavy weight base for maximum stability.
- Compatible with all Tensabarrier® accessories including our range of post top signage and wall clips.

Applications

- Enhance and manage queuing spaces.
- Cordon off out of service areas.
- Ideal for a variety of applications including: airports, retail outlets, hotels, casinos, movie theatres.
