

Motorcycle Locking Loop Bolt Down 1 Holder Galvanised

The Motorcycle Locking Loop - Bolt Down is ideal for securing motorcycles. The Loop is bolted onto the ground providing a very high level of security when used with the motorcyclists own locking chain. The lock loop is designed so it can be operated with gloves on and when not in use presents only a minimal trip hazard (The unit is only 20mm above ground). 4 x high security shear nuts and bolts are supplied for installation.

The loop is fabricated from 20mm solid galvanised steel plate and is therefore extremely strong and durable. The Motorcycle Locking Loop - Bolt Down is finished in galvanised mild steel making it ideal for use outside where it will retain it's looks for years.

Part Number	Description	Weight (kg)
138 200 260	Motorcycle Locking Loop Bolt Down	5kg

Product details

- 20mm solid steel plate
- 20mm x 220mm x 300mm (height x width x length)
- Includes 4 x high security shear nuts and bolts
- Galvanised mild steel
