

PRODUCT SPECIFICATION

PRODUCT NAME **TRAFFIC-LINE Flexible Post**

DESCRIPTION

Traffic Cylinder designed to comply with **BS EN 13422** and **TSRGD 2002**. The cylinder is fitted with an elastic mechanism to enable cylinder to be inclined parallel to the road surface without any distortion to the cylinder. The cylinder will return to the vertical once the bending force is removed.

Foot designed to locate in all proprietary 'Cats Eye' bases.

MATERIALS
